Color

Figma uses a vibrant color palette. While quite open ended in its use, there are some nuances to the application – particularly in how the Figma mark interplays with colors elswhere. This section delves into those nuances.

Typography

Practically, we skew towards the minimum number of typographic styles in our design – condensing as many styles as we can to reduce visual noise.

Primary - Josefin Sans

Title - Reg 64 (64)

H2 - Reg 24 (24)

In the pursuit of happiness we tend to stray from our original ideals, thus losing ourselves in the process.

Body - Reg 18 (24)

And to quote Michael Carini, although we should never apologize for being ourselves, we should apologize for the times that we are not.
